A collection of dark, layered mineral specimens, possibly graphite or mica, arranged in a stack. A single, clear, faceted crystal specimen is prominently displayed in the foreground, partially overlapping the dark minerals. The background is dark, and the lighting highlights the textures and facets of the crystals.

A stack of five dark, rounded stones, likely volcanic, is arranged in a pyramid shape. The stones are wet, with water droplets visible on their surfaces. They are placed on a wet, reflective surface, possibly a stone or metal, which shows a clear reflection of the stones and a sprig of fresh rosemary. The background is a light, neutral color with a diagonal white-to-grey gradient in the upper right corner.
