A MIX OF CONTEMPORARY AESTHETICS AND TIMELESS ELEGANCE

Glam Surface offers authentic and refined surfaces created by depositing porcelain stoneware flakes on the material. This technique produces a tangible and three-dimensional effect. The product comes in five colors: White, Nero, Crema, Choco, Charcoal, and Barly. It has a thickness of 15mm and two surface options: Gress Matt and Extra Gloss.

A NEW DIMENSION TO YOUR SPACE.

Glam Surface is a contemporary and sustainable product that combines Earth and technology. It is a full-bodied technical material created by blending small fragments and pigments of different colors. The series offers six essential hues that harmonize with natural elements, providing easily matchable tones.

The collection is divided into two aesthetic families: Ground, with a neutral color palette, and Flakes, with six intense colors. The product's potential uses are further enhanced by the availability of new finishes, Comfort and Glossy Bright.

Cleaning & Maintenance

Our products are non porous (due to their high quality raw materials, stringent production parameters and state of the art technology), hence any dust or deposited waste cannot penetrate the surface.

For most cases only a damp cloth is sufficient for cleaning.

Regular cleaning highlights the aesthetic features of the surface and gives it exceptional shine.

For highly aggressive cleaning caused by some common food and substances follow the table below.
