*To be inventive is to be as simple as possible in every creation. Simplicity in the creation not only eliminates the inconvenience in its utilization, but also enhances the charm of the creation, art and inventiveness.*

*Keeping it simple makes any creation a perfect piece of art. Simplicity is the heart of creativity and creativity is the heart of invention.*

# Inventive

*Perfection automatically comes in the  
creation when you give 100% of your  
concentration and mindfulness in making  
of your creation.*

*When you determine to work with perfection,  
you end up creating a masterpiece.*

# Precision

*Everyone wants to be different from others.  
To wish to be different from others, is to  
become typical in some way. To flow out of a  
stereotypical stream, you need to have unique  
mindset and peculiar style.*

*Design your space out of simple yet creative  
things and exclude yourself from  
being typical.*

# Atypical

*Unique things happen only when you  
expand your perspective and look at the  
world differently.*

*There is a large area of possibilities  
and when you choose the right one,  
you make a creation full of life.*
